

AHP::VariablesConfigured
::serialize

```
graph LR; A["AHP::VariablesConfigured::serialize"] --> B["Serializer::serialize"]
```

The diagram illustrates a function call. On the left, a gray rectangular box contains the text "AHP::VariablesConfigured" on the top line and "::serialize" on the bottom line. A dark blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text "Serializer::serialize".

Serializer::serialize
